PROFESSIONAL SUMMARY

Frontend Developer | React.Js | Typescript | Javascript | TailwindCSS | HeroUI | CSS3 | HTML5

Frontend Developer with 4+ years of experience building responsive web applications using React.js, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS, & HeroUI. Transitioned into software development from a facilities management background, bringing strong problem-solving and process-driven thinking into frontend engineering. Skilled in developing reusable components, integrating REST APIs, implementing client-side routing, & optimizing application performance. Experienced in writing clean, maintainable code and collaborating in Agile development teams.

SKILLS

LANGUAGES : TYPESCRIPT, JAVASCRIPT, TAILWINDCSS, CSS3, HTML5

FRAMEWORKS : REACTJS, HEROUI & PRO

VERSION CONTROL : GITHUB, GIT

EXPERTISE

SOFTWARE ENGINEER

(2025 - Present)

Vezham Technologies Private Limited

- Developed and maintained scalable product-based web applications using ReactJS, HeroUI Pro, TypeScript and TanStack Router.
- Built 25+ reusable UI components and responsive layouts to improve application consistency and user experience.
- Implemented client-side routing across 10+ pages/routes, improving navigation flow using TanStack Router.
- Collaborated with a team of 2+ designers and backend developers to deliver new product features & optimize existing modules.
- Debugged and resolved 20+ front-end issues, improving application performance and usability across devices.
- Utilized Git for version control, code reviews, and team collaboration in agile development workflows.

JUNIOR DEVELOPER

(2022 - 2025)

Mathy Examsdaily Private Limited

- Resolved 30+ reported bugs/errors, improving system reliability.
- Collaborated with other developers to identify areas of improvement within the application stack.
- Developed and maintained 3+ web applications using HTML, CSS, JavaScript, React.js, Vue.js.
- Tested and debugged front-end for web applications.
- Utilized Git for version control, facilitating team collaboration and code management.

FACILITIES COORDINATOR

(2021 - 2022)

s24 * 7 Facility Management Services

- Complex issues related to the operation of facility systems and maintain records of work orders, service requests, preventive maintenance schedules, and other documentation.
- Managed contracts with third-party service providers relating to ongoing maintenance activities.

EDUCATION

PGD IN FACILITIES & CONTRACT MANAGEMENT

(2019 - 2021)

Indian Institution of Infrastructure and Construction

BACHELOR OF ENGINEERING - MECHANICAL

(2014 - 2018)

Vaigai college of Engineering

PROJECTS

Vezham Technologies Private Limited

School-OS - School Management System (POC) Technologies - React.js, TypeScript, TailwindCSS, HeroUI

Key Features & Contributions

- Responsive and 25+ reusable UI components using React.js, TypeScript, & HeroUI for a consistent user experience.
- Implemented TanStack Router for efficient client-side navigation with nested and protected routes across multiple modules.
- Built interactive interfaces for Student Management, Teacher Management, Attendance Tracking, Class Schedules, Timetables, Examinations, Academic Reports, and Transport Management.
- Designed responsive layouts with form validation, data tables, filtering, and intuitive navigation to improve usability.
- Collaborated with backend developers and UI/UX designers to deliver scalable, maintainable, and production-ready frontend modules.

Mathy Examsdaily Private Limited

Encore - Telecalling and Educational Management System Technologies - Vue.js, Springboot, PostgreSQL

Key Features & Contributions

- Developed role-based access control for Telecaller, Admin, HR, and Super Admin users.
- Built an enquiry-to-admission workflow to manage complete student conversion and course purchase lifecycle.
- Designed team management functionality enabling Super Admins to create & manage multiple teams with isolated data.
- Implemented inventory management for books and educational materials.
- Developed HR and administrative modules for managing storage inventories and operational requirements.

FoodNest - Full Stack E-Commerce Technologies - React.js, Node.js, MongoDB, Razorpay, Nodemailer

Key Features & Contributions

- Developed a responsive user interface using React.js for seamless food browsing and ordering.
- Built an Admin Dashboard for product creation, updates, and inventory management.
- Integrated Razorpay payment gateway to support secure online transactions.
- Implemented automated email notifications for order confirmations and status updates using Nodemailer.
- Designed customer review functionality to improve user engagement and product feedback.

E-Connect - HR Management System Technologies - React.js, Spring Boot, H2 Database, REST APIs

Key Features & Contributions

- Developed employee management modules for onboarding, attendance tracking, payroll, and personal information management.
- Built secure role-based dashboards for HR administrators and employees.
- Implemented recruitment functionality allowing HR teams to post job openings, manage applications, and track candidates.
- Developed employee self-service features for attendance, salary details, and profile management.
- Designed responsive user interfaces with seamless backend integration for improved usability.
